

WORKDAY PLANNER APP

by Nicole George

CLIENT BRIEF

01

Create a workday planner, where the user can add their daily schedule. Their schedule should be stored to their computer so they can keep track of their daily tasks.

02

This app will run in the browser and feature dynamically updated HTML and CSS powered by jQuery.

03

You'll need to use the Moment.js library to work with date and time. Be sure to read the documentation carefully and concentrate on using Moment.js in the browser.

FRONT END

HTML/CSS
Bootstrap

BACK END

JQuery
Moment.js

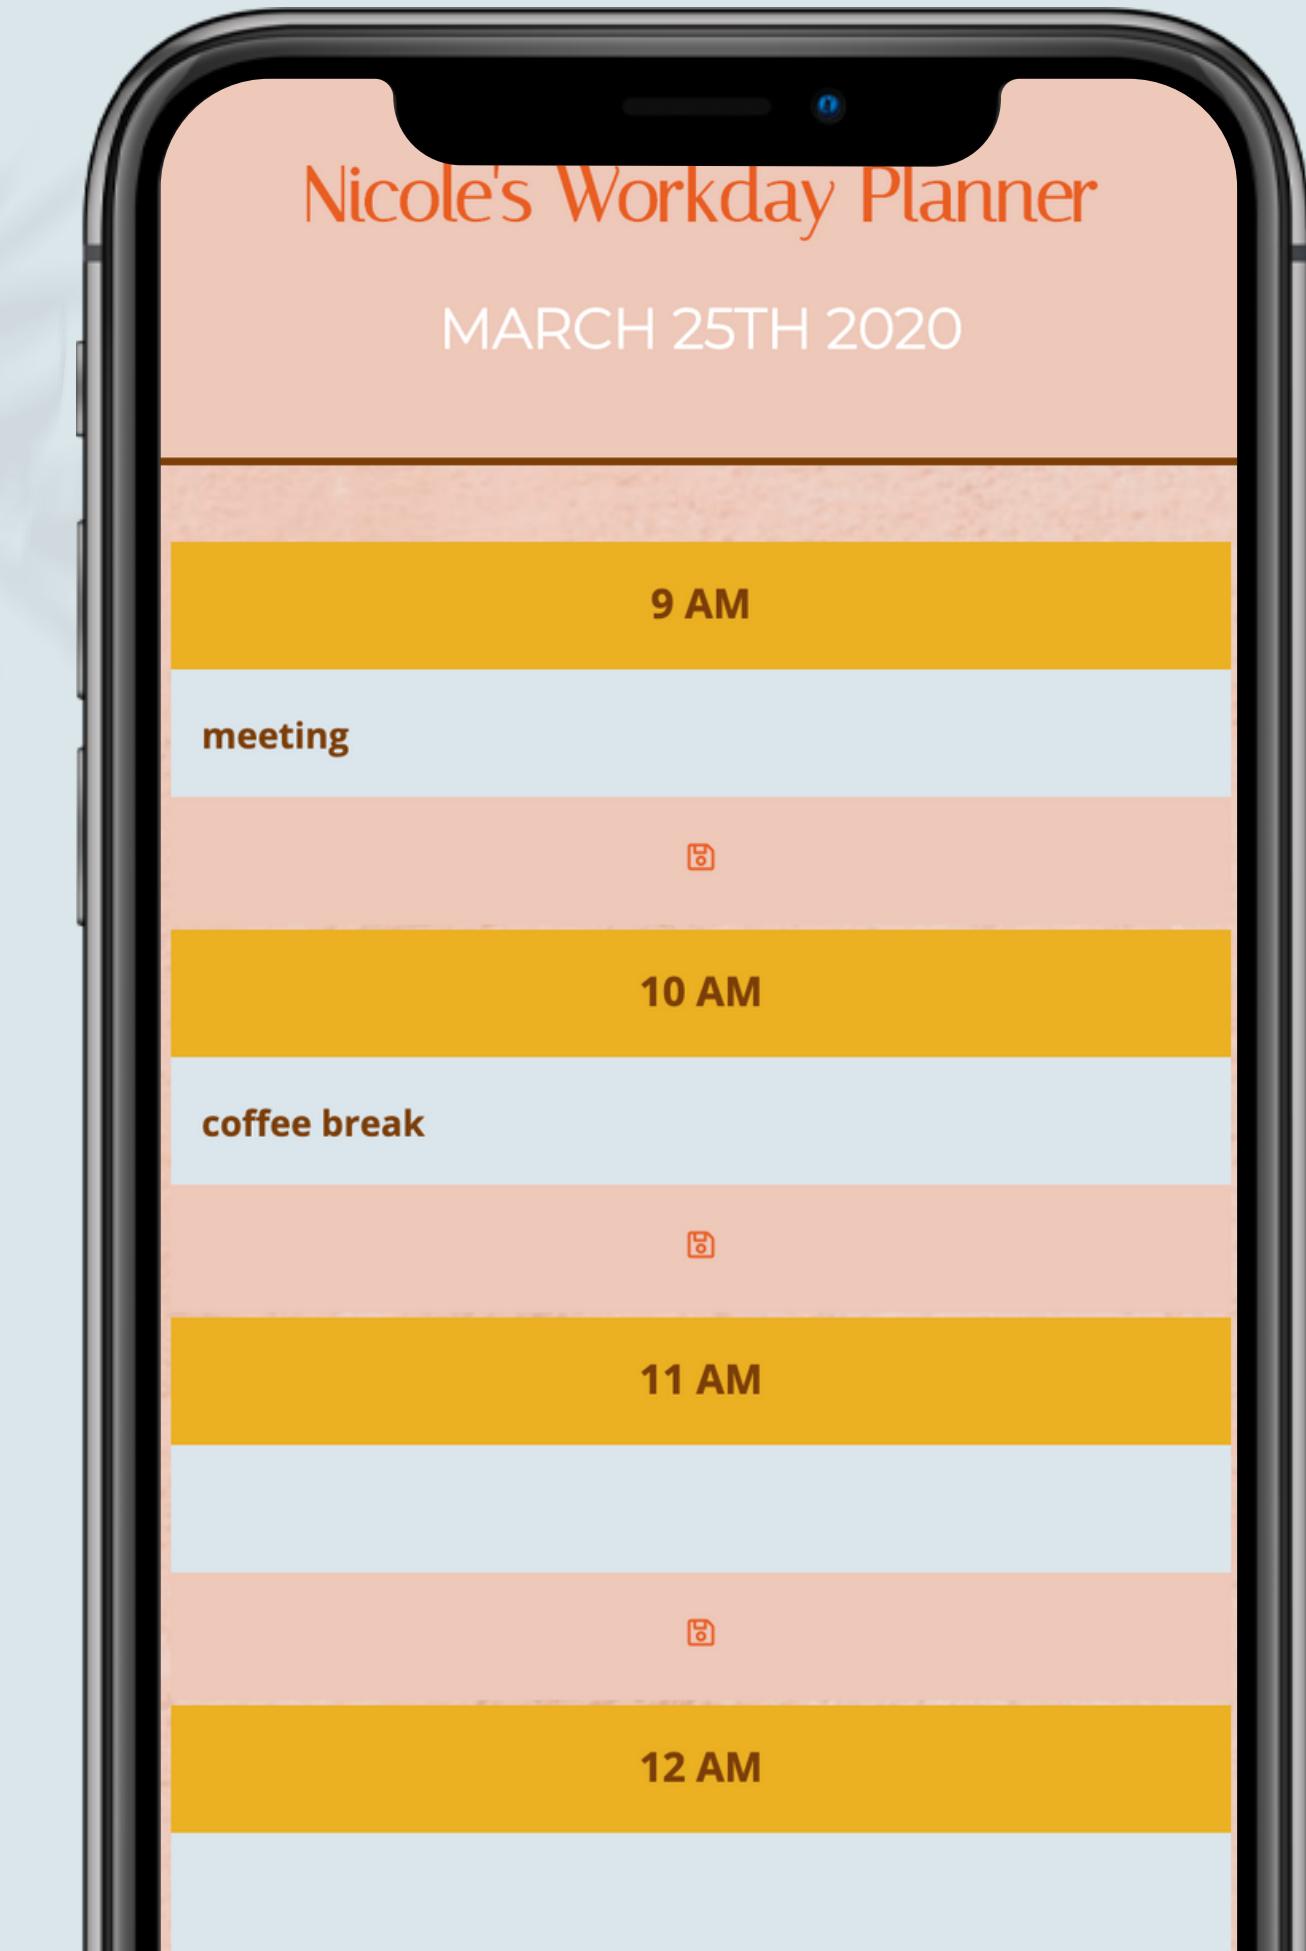

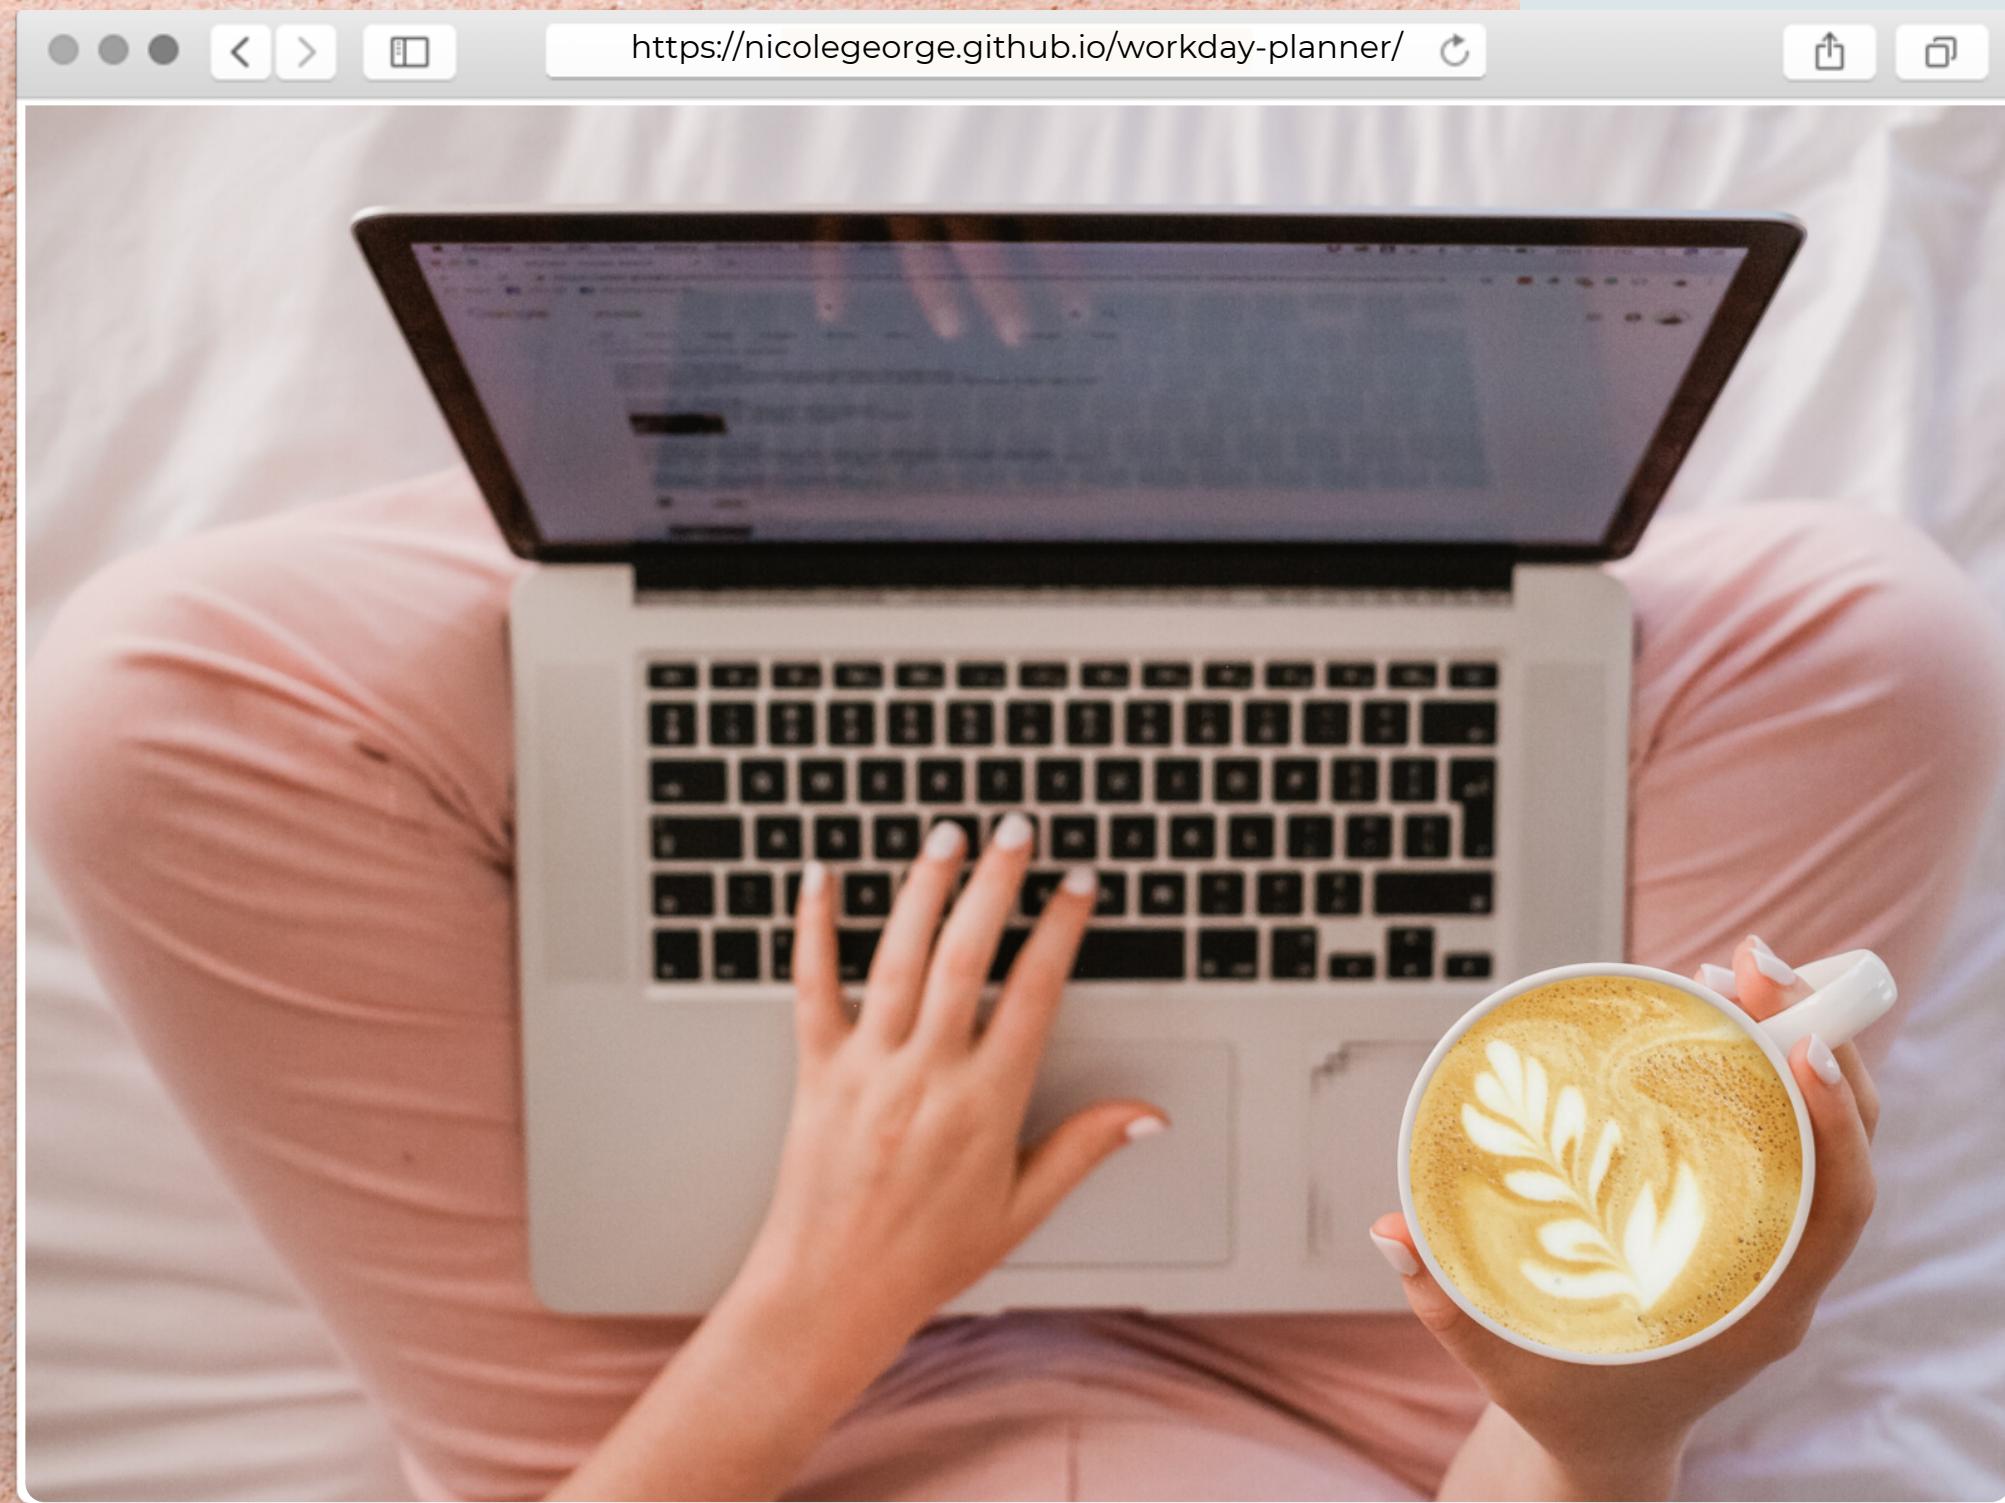

DESKTOP VERSION

clean + easy to navigate UI
